SUBJECT INDEX*

A

Abdominal angina, surgical treatment of: review of 25 patients (Reul et al.), 682
aorta, infrarenal, totally occluded, ascending aorta–bilateral femoral artery bypass for (Frantz et al.), 471
aneurysm, inferior vena caval obstruction caused by expansion of: report of case and review of literature (Snider, Porter, and Eidemiller), 613
Academic surgeon and emergency department (Rutherford), 259
Acid absorption, fatty, in jejunal autograft and allograft (Stamford and Hardy), 496
gastric, serum calcium, and serum gastrin secretion before and after parathyroidectomy for hyperparathyroidism (Stremple and Watson), 841
hydrochloric, for treatment of severe metabolic alkalosis, intravenous infusion of (Abouna et al.), 194
Adenosine triphosphate–magnesium chloride administration in shock, effect of (Chaudry et al.), 213
Adhesion, platelet, inhibited: non-thrombogenic characteristic of heparin-coated surface (Lagergren, Olsson, and Swedenborg), 643
Adrenal destruction, transvenous: clinical trials in patients with metastatic malignancy (Zimmerman et al.), 550
Alkalosis, metabolic, severe, intravenous infusion of hydrochloric acid for treatment of (Abouna et al.), 194
Allograft and autograft, jejunal, fatty acid absorption in (Stamford and Hardy), 496
and host splenic parenchymal and capsular histidine decarboxylase activity and weights following renal allografting in rats, elevation in (Moore et al.), 203
renal, in rats, elevation in host splenic and in allograft parenchymal and capsular histidine decarboxylase activity and weights following (Moore et al.), 203
small intestinal, orthotopic, canine, preserved for 24 hours by hypothermic bloodless perfusion, prolonged survival of (Toledo-Pereyra et al.), 368
Allotransplantation, renal, obturator intestinal obstruction following: relief with hyperosmolar enemas (Berger et al.), 746
American surgery and Halsted (Hughes), 169
Amputation, interscapulothoracic for complications of breast cancer: new approach (Pressman), 796
Amyloidoma (solitary nodule of lung) (Marchesini, Almeida Chaves Luis, and Cravo), 621
Anastomosis, microvascular: device for holding stay sutures and new vascular clamp (Acland), 185
superficial temporal artery–to–middle cerebral artery, physiologic factors in selection of patients for (Austin, Laffin, and Hayward), 861

Anastomosis—Cont'd
vascular, in relation to host artery, stress at: synthetic graft diameter (Kinley et al.), 28
Anatomic control of vertebral arteriovenous fistulas (Kornmesser and Bergan), 80
Anatomy, surgical (Skandalakis et al.) (editorial), 148
Anemia, normovolemic, acute, adequacy of myocardial oxygen delivery in (Brazier et al.), 508
Aneurysm, aortic, abdominal, inferior vena caval obstruction caused by expansion of: report of case and review of literature (Snider, Porter, and Eidemiller), 613
mycotic, successful management of: report of case (Cooke and Ehrenfeld), 132
Angina, abdominal, surgical treatment of: review of 25 patients (Reul et al.), 682
Anoxic arrested heart, protective effect of glycogen and glucose on (Hewitt et al.), 1
Antibiotic administration, systemic, in potentially contaminated operations, diminished surgical infection by (Polk) (editorial), 312
Antral gastrin mechanism, experimental study of (Friesen et al.), 517
Aorta, ascending–bilateral femoral artery bypass for totally occluded infrarenal abdominal aorta (Frantz et al.), 471
Aortic aneurysm, abdominal, inferior vena caval obstruction caused by expansion of: report of case and review of literature (Snider, Porter, and Eidemiller), 613
mycotic, successful management of: report of case (Cooke and Ehrenfeld), 132
replacement, fate of nylon vascular prosthesis for: 14 year follow-up study (Yaw et al.), 140
Arterialization, liver, with portacaval shunt in cirrhotic rat (Lecompte et al.), 161
Arteriovenous fistulas, "smooth loop," for hemodialysis (Karmody and Lempert), 238
vertebral, anatomic control of (Kornmesser and Bergan), 80
shunting after sympathectomy (Rhodes et al.) (letter to editors), 153; reply (Delaney and Scarpino), 154
Artery(ies), coronary, surgery and magnification (Glenn) (editorial), 629
femoral, bilateral–ascending aorta bypass for totally occluded infrarenal abdominal aorta (Frantz et al.), 471
host, stress at vascular anastomosis in relation to: synthetic graft diameter (Kinley et al.), 28
occlusion, renal, total, microangiography of renal vasculature following (Brodman et al.), 734
renal, surgical correction of advanced fibromuscular dysplasia of (Belzer et al.), 31
superficial temporal, –to–middle cerebral artery anastomosis, physiologic factors in selection of patients for (Austin, Laffin, and Hayward), 861
tibial-peroneal, by single lateral approach, exposure of (Dardik et al.), 377
Arts, transportation and reimplantation in (Tosatti), 389

*January, pp. 1-154; February, pp. 155-318; March, pp. 319-476; April, pp. 477-630; May, pp. 631-804; June, pp. 805-966.

Atresia, biliary, surgically correctable, experiences in the management of (Arima et al.), 228
Atrial septal defects, nonoperative closure of (King and Mills), 383
Atropine on basal and food-stimulated serum gastrin levels in man, effect of (Becker, Reeder, and Thompson), 701
Author the writer, is: Rewriting and by-line (DeBakey), 38
Authorship, honesty in (DeBakey) (letter to editors; reply to letter by Hewitt), 802
Autoclavable information, no need for (Ravitch) (letter to editor), 476; reply (Myers), 476
Autograft(s) and allograft, jejunal, fatty acid absorption in (Stamford and Hardy), 496
vein, saphenous, autogenous, and bovine heterografts, experience with: alternatives for vascular access for hemodialysis (Haimov et al.), 447

and upper and lower small intestinal washings of bile fistula rabbit, relative secretion of cholesterol-4-^{14}C in (Buchwald et al.), 266
Biliary atresia, surgically correctable, experiences in management of (Arima et al.), 228
Blood flow, hepatic, in man, measurement of (Bradley), 783
stored, problems associated with massive transfusion of (Collins), 271
supply of experimental liver metastases: changes in vascularity with increasing tumor growth (Ackerman), 589
Bloodless perfusion, hypothermic, prolonged survival of canine orthotopic small intestinal allografts preserved for 24 hours by (Toledo-Pereyra et al.), 368
Body asanguineous hypothermic perfusion, total, successful reversal of lethal carbon monoxide intoxication by (Agostini et al.), 213
Bowel, small, bypass, cause of fatty liver following: transient kwashiorkor (White et al.), 829
on gastric secretory function, effect of: postintestinal exclusion hypersecretion, phenomenon in search of syndrome (Buchwald, Coyle, and Varco), 821
secretory function: postintestinal exclusion hypersecretion, phenomenon in search of syndrome (Buchwald, Coyle, and Varco), 821
Brain norepinephrine in acute hepatic coma, depletion of (Dodsworth et al.), 811
Breast cancer, interscapulothoracic amputation for complications of: new approach (Pressman), 796
carcinoma, bilateral, non-simultaneous (Watanatittan and Ram), 740
Breech-born infants, pinhole colonic perforation in (Andersson et al.), 617
Buerger's disease, diagnosis, pathology, and treatment (Shionoya et al.), 695

Bypass, ascending aorta–bilateral femoral artery, for totally occluded infrarenal abdominal aorta (Frantz et al.), 471
esophageal, operation, simple, by high gastric division (Akiyama and Hiyama), 674
femoropopliteal, crossover (Haimov), 610
small bowel, cause of fatty liver following: transient kwashiorkor (White et al.), 829
on gastric secretory function, effect of: postintestinal exclusion hypersecretion, phenomenon in search of syndrome (Buchwald, Coyle, and Varco), 821
venoarterial, with membrane oxygenator: successful respiratory support in woman following pulmonary hemorrhage secondary to renal failure (Hanson et al.), 557

C

Calcium, serum, gastric acid secretion, and serum gastrin before and after parathyroidectomy for hyperparathyroidism (Stremple and Watson), 841
Calculi, residual, in common bile duct, transcholecystic extraction of (Mazzariello), 338
Cancer, breast, interscapulothoracic amputation for complications of: new approach (Pressman), 796
in groin, hernia presentation of (Geelhoed et al.), 436
immunotherapy, experimental, using a neuraminidase-treated non-viable frozen tumor vaccine (Rios and Simmons), 503
oral, laryngeal, and pharyngeal, deglutition after resection of (Doberneck and Antoine), 87
Capillary perfusion, pulmonary, factors altering (Schwartz et al.), 750
Capsular and parenchymal histidine decarboxylase activity and weights, host splenic and allograft, following renal allografting in rats, elevation in (Moore et al.), 203
Carbon monoxide intoxication, lethal, by total body asanguineous hypothermic perfusion, successful reversal of (Agostini et al.), 213
Carcinoma, breast, bilateral, non-simultaneous (Watanatittan and Ram), 740
Cardiorespiratory effects of hypertonic glucose in critically ill patient (Pindyk et al.), 11
variables in critically ill patient, interaction of glucagon and glucose (Drucker et al.), 487

Carotid intimal tear following blunt craniocervical trauma (Crissey and Bernstein), 543
Cava, vena, filter, Mobin-Uddin, routine venography in placement of: dual filter placement in patient with accessory vena filter (cardinal vein) (Kartchner and Bogosian), 137
Cerebral artery, middle, –to–superficial temporal artery anastomosis, physiologic factors in selection of patients for (Austin, Laffin, and Hayward), 861
Chlorpropamide, altered action of parathyroid hormone by (Neumann and Moses), 869
Cholecystokinin and secretin, endogenous, on pentagastrin-stimulated innervated and denervated gastric mucosa, effect of (Dorighi, Kaminski, and Willman), 755
Cholesterol-4-^{14}C in bile and upper and lower small intestinal washings of bile fistula rabbit, relative secretion of (Buchwald et al.), 266
Cirrhotic rat, liver arterialization with portacaval shunt (Lecompte et al.), 161
Clamp, vascular, new, and device for holding stay sutures: microvascular anastomosis (Acland), 185
Clerkship, surgical, in university hospital, are there educational advantages to? (Levitsky et al.), 898
Coagulation in hemophilic dog by transplantation of lymphatic tissue, correction of (Groth et al.), 725
Collagen, microcrystalline, as topical hemostatic agent for vascular surgery (Abbott and Austen), 915
Colon perforation associated with steroid therapy (Sterioff et al.), 56
  pinhole, in breech-born infants (Andersson et al.), 617
Coma, hepatic, acute, depletion of brain norepinephrine in (Dodsworth et al.), 811
Congenital incomplete prepyloric diaphragm in infants and children (Keramidas), 690
Core temperature, intraoperative, neonate's, method for maintaining (Shim and Halford), 416
Coronary artery surgery and magnification (Glenn) (editorial), 629
Craniocervical trauma, blunt, delayed presentation of carotid intimal tear following (Crissey and Bernstein), 543
Cryopreservation and other factors which affect its function, evaluation of: transplanted parathyroid gland (Wells and Christiansen), 49
Cryoprotectants, perfusion techniques, and surgical preparation used in successful freezing of kidney (Rebelo et al.), 319

D

Decarboxylase, histidine, activity and weights, host splenic and allograft parenchymal and capsular, following renal allografting in rats, elevation in (Moore et al.), 203
Deglutition after resection of oral, laryngeal, and pharyngeal cancers (Doberneck and Antoine), 87
Department, emergency, and academic surgeon (Rutherford), 259
Dermal wound healing studies, application in: Nomarski differential-interference contrast microscopy (Salthouse), 59
Diabetes mellitus, mechanism of infection in patients with: review of leukocyte malfunction (Robertson and Polk), 123
Diaphragm pacing: xenon-133 radiospirometry in electrophrenic respiration (Forbes et al.), 398
Dilemma, young surgeon's (Dardik) (letter to editors), 630
Disease, Buerger's, diagnosis, pathology, and treatment (Shionoya et al.), 695
  occlusive, iliofemoral, unilateral, extraperitoneal endarterectomy for (Inahara and Pineda), 771
Division, gastric, high, simple esophageal bypass operation by (Akiyama and Hiyama), 674
Drainage, venous, of ischemic kidney (Brodman et al.), 584
Duct, bile, common, transcholecystic extraction of residual calculi in (Mazzariello), 338
  extrahepatic, and bile peritonitis in infancy, spontaneous perforation of (Lilly, Weintraub, and Altman), 664
Dye-dilution vs. pulse contour methods (Bradley) (letter to editors), 317
Dysplasia, fibromuscular, advanced, of renal arteries, surgical correction of (Belzer et al.), 31

E

Education, surgical, undergraduate, objectives and methods in (DePalma et al.), 915
Educational advantages to surgical clerkship in university hospital, are there? (Levitsky et al.), 898
Electrophrenic respiration, xenon-133 radiospirometry in: diaphragm pacing (Forbes et al.), 398
Embolism, pulmonary, and postoperative deep vein thrombosis: selective review and personal viewpoint (Skillman), 114
Emergency department and academic surgeon (Rutherford), 259
Encephalopathy, hepatic, acute, by intravenous levodopa, treatment and prevention (Abramsky and Goldschmidt), 188
Endarterectomy, extraperitoneal, for unilateral iliofemoral occlusive disease (Inahara and Pineda), 771
Endotoxemia and reticuloendothelial dysfunction following portal vein occlusion (Olcay et al.), 64
Enemas, hyperosmolar, relief with: obturator intestinal obstruction following renal allotransplantation (Berger et al.), 746
Enterobiliary metabolism of lecithin, investigations of (Tompkins and King), 243
Esophageal bypass, operation, simple, by high gastric division (Akiyama and Hiyama), 674
  hiatus, identification of vagal structures at (Skandalakis et al.), 233
  wounds of zinc-deficient rats, thymidine incorporation in (MacMahon et al.), 660
Exclusion, gastric, operations on pancreatic exocrine secretion, effects of (Thomas and Mason), 461
Exocrine secretion, pancreatic, effects of gastric exclusion operations of (Thomas and Mason), 461

Extraction, transcholecystic, of residual calculi in common bile duct (Mazzariello), 338
Extraperitoneal endarterectomy for unilateral iliofemoral occlusive disease (Inahara and Pineda), 771

F

Factors altering pulmonary capillary perfusion (Schwartz et al.), 750
Fatty acid absorption in jejunal autograft and allograft (Stamford and Hardy), 496
Femoral artery, bilateral–ascending aorta bypass for totally occluded infrarenal abdominal aorta (Frantz et al.), 471
  venous occlusion in subhuman primate, hemodynamic effects of (Wright and Hobson), 453
Femoropopliteal, bypass, crossover (Haimov), 610
Fever and tachycardia, correlation with: hypermetabolism in sepsis (Halmagyi et al.), 763
Fibromuscular dysplasia, advanced, of renal arteries, surgical correction of (Belzer et al.), 31
Filter, ultrapore–induced thrombocytopenia (Gervin et al.), 566
  vena cava, Mobin-Uddin, routine venography in placement of: dual filter placement in patient with accessory vena filter (cardinal vein) (Kartchner and Bogosian), 137
Fistulas, arteriovenous "smooth loop," for hemodialysis (Karmody and Lempert), 238
  vertebral, anatomic control of (Kornmesser and Bergan), 80
  bile, rabbit, relative secretion of cholesterol-4-^{14}C in bile and upper and lower small intestinal washings of (Buchwald et al.), 266
Flow, blood, hepatic, in man, measurement of (Bradley), 783
Flow-pressure relationships, vascular, in denervated and reimplanted lungs of dogs (Wagner et al.), 91
Fracture patients immobilized in plaster of Paris, protection of skin of (Boroda and Mouzas), 638
Freezing, successful, of kidney, surgical preparation, perfusion techniques, and cryoprotectants used in (Rebelo et al.), 319

Tumor(s), beta-islet cell, of pancreas: results of study on 1,067 cases (Stefanini et al.), 597
growth, increasing, changes in vascularity with: blood supply of experimental liver metastases (Ackerman), 589
and tissue responses, specific, of chimpanzees following immunization against human melanoma (Hornung and Krementz), 477
vaccine, frozen, non-viable, neuraminidase-treated experimental cancer immunotherapy using (Rios and Simmons), 503
Tunneler, simple and inexpensive, for use in peripheral vascular surgery (Blumenberg and Gelfand), 305

U

Ultrapore filter–induced thrombocytopenia (Gervin et al.), 566
Undergraduate medical education in Great Britain (Philpott) (editorial), 150
surgical education, objectives and methods in (DePalma et al.), 915
University hospital, are there educational advantages to a surgical clerkship in? (Levitsky et al.), 908
in Great Britain, observation on practice of surgery in: broadening of vision (Tilney), 776
Ureteroileotomy in renal homotransplantation, simplified method of (Marchioro and Tremann), 129
Ureterosigmoid conduit urinary diversion (Lindenauer, Cerny, and Morley), 705
Urinary diversion, conduit, ureterosigmioid (Lindenauer, Cerny, and Morley), 705

V

Vaccine, tumor, frozen, non-viable, neuraminidase-treated, experimental cancer immunotherapy using (Rios and Simmons), 503
Vagal release of gastrin, direct measurement of (Becker et al.), 101
section, comparison of intraoperative tests of completeness of (Grassi and Orecchia), 155
structures at esophageal hiatus, identification of (Skandalakis et al.), 233
Vagotomist, adequate, how to be (Alexander-Williams) (editorial), 308
Vascular access for hemodialysis, alternatives for: experience with autogenous saphenous vein autografts and bovine heterografts (Haimov et al.), 447
anastomosis in relation to host artery, stress at: synthetic graft diameter (Kinley et al.), 28
bed, terminal, in canine hemorrhagic shock, hemodynamics of (Fronek and Witzel), 408
clamp, new, and device for holding stay sutures: microvascular anastomosis (Acland), 185

Vascular—Cont'd
pressure-flow relationships in denervated and reimplanted lungs of dogs (Wagner et al.), 91
prosthesis, nylon, for aortic replacement, fate of: 14 year follow-up study (Yaw et al.), 140
surgery, microcrystalline collagen as topical hemostatic agent for (Abbott and Austen), 925
peripheral, simple and inexpensive tunneler for use in (Blumenberg and Gelfand), 305
Vascularity with increasing tumor growth, changes in: blood supply of experimental liver metastases (Ackerman), 589
Vasculature, renal, following total renal artery occlusion, micoroangiography of (Brodman et al.), 734
Vasopressin and topical bile salts on gastric mucosal barrier of subhuman primate, influence of (Ritchie), 853
Vein occlusion, portal, reticuloendothelial dysfunction and endotoxemia following (Olcay et al.), 64
saphenous, autografts, autogenous, and bovine heterografts, experience with: alternatives for avascular access for hemodialysis (Haimov et al.), 447
thrombosis, deep, postoperative, and pulmonary embolism: selective review and personal viewpoint (Skillman), 114
Vena cava filter, Mobin-Uddin, routine venography in placement of: dual filter placement in patient with accessory vena filter (cardinal vein) (Kartchner and Bogosian), 137
Vena caval obstruction, inferior, caused by expansion of abdominal aortic aneurysm: report of case and review of literature (Snider, Porter, and Eidemiller), 613
Venoarterial bypass with membrane oxygenator: successful respiratory support in woman following pulmonary hemorrhage secondary to renal failure (Hanson et al.), 557
Venography, routine, in placement of Mobin-Uddin vena cava filter: dual filter placement in patient with accessory vena filter (cardinal vein) (Kartchner and Bogosian), 140
Venous drainage of ischemic kidney (Brodman et al.), 584
occlusion, femoral, in subhuman primate, hemodynamic effects of (Wright and Hobson), 453

W

Wounds, espophageal, of zinc-deficient rats, thymidine incorporation in (MacMahon et al.), 660
healing, dermal, studies, application in: Nomarski differential-interference contrast microscopy (Salthouse), 59
topical lipid protection of burned subjects and their (Jelenko et al.), 892
Writing, medical, and scientists (Hewitt) (letter to editors), 802; reply (DeBakey), 802

X

Xenon-133 radiospirometry in electrophrenic respiration: diaphragm pacing (Forbes et al.), 398

Z

Zinc-deficient rats, thymidine incorporation in esophageal wounds of (MacMahon et al.), 660

  ischemic, nonventilated, evaluation of pulmonary function in (Fonkalsrud et al.), 527
  transplantation and immunosuppression, effect of, upon surfactant (Drews et al.), 80
Lymph, thoracic duct, and peripheral blood, rabbit anti–rat lymphocyte serum-induced lymphopenia in (Girardet, Friedman, and Karlson), 267
Lymphangiography, use of, in melanoma (Ariel), 654
Lymphangiomatosis, hepatic and splenic, with skeletal involvement: report of case and review of literature (Asch, Cohen, and Moore), 334
Lymphocyte globulin, chicken anti–rat: prolongation of rat cardiac allograft survival by new immunosuppressant (Morris et al.), 150
  output by isolated perfused rabbit thymus (Ekwueme and Forrest), 794
  rabbit anti–rat, serum-induced lymphopenia in thoracic duct lymph and peripheral blood (Girardet, Friedman, and Karlson), 267
Lymphoid cells, lymphotoxin-secreting, accumulation of, in rat heart allografts (Granger and Moore), 542
Lymphopenia in thoracic duct lymph and peripheral blood, rabbit anti–rat lymphocyte serum-induced (Girardet, Friedman, and Karlson), 267
Lymphotoxin-secreting lymphoid cells, accumulation of, in rat heart allografts (Granger and Moore), 542

M

Malignancies, spontaneous (pathologic) rupture of spleen in (Karakousis and Elias), 674
Malignant and normal human breast tissue, trace elements in (Schwartz et al.), 325
  melanoma, BCG treatment for, uveitis and vitiligo associated with (Donaldson et al.), 771
Malignant—Cont'd
Mammary tumor, mouse, virus–associated antigen, radioimmunoassay for (Lo Gerfo et al.), 16
Medical education, graduate, and credentialling, changes and trends in (Humphreys), 243
Melanoma, B_{16}, in vitro comparison of, in primary and metastatic form: immune surveillance and tumor dissemination (Goldman et al.), 50
  malignant, BCG treatment for, uveitis and vitiligo associated with (Donaldson et al.), 771
  use of lymphangiography in (Ariel), 654
Membrane antigen, cross-reactive streptococcal, tolerance to myocardial tissue allografts by pretreatment with (Ellis et al.), 142
  oxygenator, new microporous Teflon, total cardiopulmonary bypass with (Karlson et al.), 935
Membranotomy, successful balloon, for obstruction of hepatic portion of inferior vena cava (Eguchi, Takeuchi, and Asano), 837
Mesenteric, superior, and portal veins, thrombectomy in: report of case treated with thrombectomy (Bergentz et al.), 286
Metabolism, transhepatic, after end-to-side portacaval shunt in young pig (Hickman et al.), 601
Metastases from primary methylcholanthrene-induced sarcoma, in vitro demonstration of altered antigenicity of (Faraci), 469
Metastatic and primary form, in vitro comparison of B_{16} melanoma in: immune surveillance and tumor dissemination (Goldman et al.), 50
Methylcholanthrene-induced sarcoma, primary, in vitro demonstration of altered antigenicity of metastases from (Faraci), 469
Microaggregate formation in banked blood, effect of aspirin on (Arrington and McNamara), 295
Microcrystalline collagen, control of capillary bleeding by topical application of (Vistnes et al.), 291
Microembolization, coronary artery, in calves, model for cardiogenic shock by (Satava and McGoon), 454
Microporous Teflon membrane oxygenator, new, total cardiopulmonary bypass with (Karlson et al.), 935
Mitral commissurotomy, open, experience with, in 100 consecutive patients (Mullin et al.), 974
  valves, porcine xenograft, Kay-Shiley, Starr-Edwards No. 6520, and Reis-Hancock, clinical and hemodynamic comparisons of (Brown et al.), 983
Morphometrics, alveolar: effects of positive end-expiratory pressure (Daly, Hughes, and Norman), 624
Mucosa, upper gastrointestinal, in dogs, gastrin concentrations in (Watson et al.), 419
Mucosal barrier, gastric, and ischemia: note of caution (Ritchie) (editorial), 363
  permeability, gastric, in man, effect of ethanol, acetylsalicylic acid, acetaminophen, and ferrous sulfate on (Gordon et al.), 405
Muscle, smooth, antagonist, topical, inhibiting wound contraction by using (Madden et al.), 8
Myocardial blood flow, regional, effects of pulmonary embolism on (Oldham et al.), 160

Myocardial—Cont'd
glycogen (Blackburn) (letter to editors), 346; reply (Hewitt), 346
reactive hyperemia and coronary blood flow in ischemic dog heart (Elzinga et al.), 482
tissue allografts, tolerance to, by pretreatment with cross-reactive streptococcal membrane antigen (Ellis et al.), 142
Myonecrosis in chronic experimental vasospasm (Alksne), 1

N

Neck, staged palliative resection of recurrent carcinoma of, using extra-anatomic carotid bypass (Hagood, Mozersky, and Fite), 671
Norepinephrine and 5-hydroxytryptamine, removal of, from pulmonary vascular space of man: influence of cardiopulmonary bypass and pulmonary arterial pressure on these processes (Gillis et al.), 608
Nutrition, complete parenteral, including fat emulsion, effect of, on plasma lipid (Koga, Ikeda, and Inokuchi), 278
wound, proteolysis of preformed protein in (Ehrlich, Tarver, Hunt), 263

O

Obstruction of hepatic portion of inferior vena cava, successful balloon membranotomy for (Eguchi, Takeuchi, and Asano), 837
pyloric, aberrant pancreas causing (Matsumoto, Kawai, and Kimura), 827
Occlusion and stenosis, internal carotid, directional Doppler studies of supraorbital artery flow in (LoGerfo and Mason), 723
juxtarenal aortic (Starrett and Stoney), 890
of popliteal artery caused by popliteal cysts (Schlenker, Johnston, and Wolkoff), 833
Open mitral commissurotomy, experience with, in 100 consecutive patients (Mullin et al.), 974
Operable carcinoma of breast, choice of treatment for (Haagensen), 685
Operating room, computer logic program in (Ravitch) (editorial), 202
Operation, endorectal pull-through, follow-up study of, for treatment of Hirschsprung's disease, with special reference to intestinal anastomosis (Satomura et al.), 581
Operative management and diagnosis of duodenal duplication cysts (Ackerman), 330
Organ allografting, aging, and surgical stress, effect of, on rat thymus histidine decarboxylase activity (Moore et al.), 733
Outlet, thoracic, penetrating vascular injuries of (Hewitt et al.), 715
syndrome, sequela of; subclavian artery aneurysm (Mathes and Salam), 506
Output, lymphocyte, by isolated perfused rabbit thymus (Ekwueme and Forrest), 794
Oxygen inhibition of pulmonary surfactant synthesis, mechanisms of (Gilder and McSherry), 72
Oxygenator, new microporous Teflon membrane, total cardiopulmonary bypass with (Karlson et al.), 935

P

Pacemaker, electrode, bipolar transvenous, technique for in situ repair (Gelfand and Blumenberg), 504
Painless removal of sutures (Bialostozky) (letter to editors), 356
Palliative, staged, resection of recurrent carcinoma of neck using extra anatomic carotid bypass (Hagood, Mozersky, and Fite), 671
Pancreas, aberrant, causing pyloric obstruction (Matsumoto, Kawai, and Kimura), 827
Pancreatitis, hemorrhagic, pulmonary hypertension in (Halmagyi et al.), 637
Parenchymal, hepatic, and reticuloendothelial function in baboon, effect of ischemia on (Holper et al.), 423
Parenteral nutrition, complete, including fat emulsion, effect of, on plasma lipid (Koga, Ikeda, and Inokuchi), 278
Patch graft, inverted Dacron (LoGerfo), 525
Pathologic, spontaneous, rupture of spleen in malignancies (Karakousis and Elias), 674
Pediatric burn unit, chickenpox epidemic in (Weintraub, Lilly, and Randolph), 490
surgeons, need for, as determined by volume of work and mode of delivery of surgical care (Ravitch and Barton), 754
Surgery—a model for evaluation of surgical manpower needs (panel discussion) (O'Neill), 185
Penetrating vascular injuries of thoracic outlet (Hewitt et al.), 715
Peptic ulcer, pathogenesis of: selective review (Skillman), 515
Peptide fraction, immunosuppressive, in serum of cancer patients (Glasgow et al.), 35
Perfused canine kidney, effect of single-dose irradiation on (Malek et al.), 272
isolated, rabbit thymus, lymphocyte output by (Ekwueme and Forrest), 794
Perfusion, ex vivo, of canine renal autografts, immunologic injury induced by (Filo et al.), 88
Peripheral blood and thoracic duct lymph, rabbit anti–rat lymphocyte serum-induced lymphopenia in (Girardet, Friedman, and Karlson), 267
Peritoneography, positive-contrast, for accurate delineation of diaphragmatic abnormalities (White, Oh, and Haller), 398
Permeability, gastric mucosal, in man, effect of ethanol, acetylsalicylic acid, acetaminophen, and ferrous sulfate on (Gordon et al.), 405
Petrov, Boris, great Russian surgeon, and Sklifosovsky Institute of Emergency Surgery (Wangensteen), 204
Phagocytosis (Gans) (letter to editors), 352; reply (Di Luzio, Olcay, and Drapanas), 353
Physician supply, residency programs, and foreign medical graduate (Leape) (editorial), 372
Phytomitogens, using to mask graft antigens in renal allograft prolongation (Toledo-Pereyra et al.), 121
Pig liver homografts, another look at rejection in (Battersby et al.), 617
young, thymectomy in: effects on level of circulating thymic hormone (Lacombe et al.), 556
transhepatic metabolism after end-to-side portacaval shunt in (Hickman et al.), 601
Plasma lipid, effect of complete parenteral nutrition including fat emulsion on (Koga, Ikeda, and Inokuchi), 278
Popliteal artery, occlusion of, caused by popliteal

Popliteal—Cont'd
cysts (Schlenker, Johnston, and Wolkoff), 833
cysts, occlusion of popliteal artery caused by (Schlenker, Johnston, and Wolkoff), 833
Porcine xenograft mitral valves, Kay-Shiley, Starr-Edwards No. 6520, and Reis-Hancock, clinical and hemodynamic comparisons of (Brown et al.), 983
Portacaval shunt, end-to-side, in young pig, transhepatic metabolism after (Hickman et al.), 601
Portal and superior mesenteric veins, thrombosis in: report of case treated with thrombectomy (Bergentz et al.), 286
hypertension, postoperative, special reference to: long-term results of hepatic portoenterostomy for biliary atresia (Miyata et al.), 234
Portoenterostomy, hepatic, for biliary atresia, long-term results of: special reference to postoperative portal hypertension (Miyata et al.), 234
Positive end-expiratory pressure, effects of, on alveolar morphometrics (Daly, Hughes, and Norman), 624
ventilation, hemodynamic response to, in hypovolemic patients (Harken et al.), 786
Preformed protein, proteolysis of, in wound nutrition (Ehrlich, Tarver, and Hunt), 263
Preservation of carotid, direct repair of carotid cavernous fistula with (Parkinson et al.), 882
Pressure, positive end-expiratory, effects of, on alveolar morphometrics (Daly, Hughes, and Norman), 624
pulmonary arterial, and cardiopulmonary bypass, influence of, on these processes: removal of 5-hydroxytryptamine and norepinephrine from pulmonary vascular space of man (Gillis et al.), 608
Primates in endotoxin shock, cardiopulmonary effects of volume loading of (Greenfield et al.), 560
Program, computer logic, in operating room (Ravitch) (editorial), 202
preliminary results of, for operative management of colon cancer (Knutson and Watson), 298
Prolapse, rectal, ischemic colitis following (Kawarada, Satinsky, and Matsumoto), 340
Prosthesis, immediate postoperative, in below-knee amputation for ischemic disease, deleterious effect of (Cohen et al.), 992
Prosthetic valve replacement, probable salmonella endocarditis treated with: case report (Yamamoto et al.), 678
Protein, intake antigenic, intestinal absorption of (Warshaw and Walker), 495
preformed, proteolysis of, in wound nutrition (Ehrlich, Tarver, and Hunt), 263
Proteolysis of preformed protein in wound nutrition (Ehrlich, Tarver, and Hunt), 263
Pull-through operation, endorectal, follow-up study of, for treatment of Hirschsprung's disease, with special reference to intestinal anastomosis (Satomura et al.), 581
Pulmonary arterial pressure and cardiopulmonary bypass, influence of, on these processes: removal of 5-hydroxytryptamine and norepinephrine from pulmonary vascular space of man (Gillis et al.), 608
Pulmonary — Cont'd
embolism, effects of, on regional myocardial blood flow (Oldham et al.), 160
function in ischemic, nonventilated canine lung, evaluation of (Fonkalsrud et al.), 527
hypertension in acute hemorrhagic pancreatitis (Halmagyi et al.), 637
chronic, pulmonary vascular impedance in (Elkins et al.), 57
surfactant synthesis, mechanisms of oxygen inhibition of (Gilder and McSherry), 72
vascular impedance in chronic pulmonary hypertension (Elkins et al.), 57
space of man, removal of 5-hydroxytryptamine and norepinephrine from: influence of cardiopulmonary bypass and pulmonary arterial pressure on these processes (Gillis et al.), 608
Pyloric obstruction, aberrant pancreas causing (Matsumoto, Kawai, and Kimura), 827
Pyloroplasty, vagotomy with, and vagotomy with antrectomy, comparison of gastric emptying before and after (Donovan et al.), 729

R

Rabbit anti–rat lymphocyte serum-induced lymphopenia in thoracic duct lymph and peripheral blood (Girardet, Friedman, and Karlson), 267
thymus, isolated perfused, lymphocyte output by (Ekwueme and Forrest), 794
Radioextraction ratio, sinusoidal shunt fraction by (Bradley et al.), 918
Radioimmunoassay for mouse mammary tumor virus–associated antigen (Lo Gerfo et al.), 16
Rat(s), effect of sepsis on acute gastric ulcerations in (Rasche and Butterfield), 764
heart allografts, accumulation of lymphotoxin-secreting lymphoid cells in (Granger and Moore), 542
and patients, normal and partially hepatectomized, effect of sera obtained from, on growth of cells in tissue culture (Demetriou, Seifter, and Levenson), 779
thymus histidine decarboxylase activity, effect of aging, organ allografting, and surgical stress on (Moore et al.), 733
Reconstruction, abdominal wall, adjuncts to, following extensive cancer surgery (Tajima and McDonald), 259
of alimentary canal after total gastrectomy, new method of (Kalemba and Lazarkiewicz), 748
Rectal prolapse, ischemic colitis following (Kawarada, Satinsky, and Matsumoto), 340
ulcer, solitary: cause of life-threatening hemorrhage (Delancy and Hitch), 830
Reis-Hancock, Kay-Shiley, and Starr-Edwards No. 6520 porcine xenograft mitral valves, clinical and hemodynamic comparisons of (Brown et al.), 983
Rejection, accelerated, of human renal transplants, combined use of ^{131}I hippurate blood clearance and bladder/kidney ratio data in early detection, classification, and management of (Moore and Hayes), 587
renal allograft, failure of anti–HL-A antibodies to correlate with (Callender et al.), 573
Related kidney donation, complications of (Spanos et al.), 741
Release, gastrin and insulin, in enteroinsular axis,

Release—Cont'd
influence of glucose on (Friesen, Bolinger, and Kyner), 804
Renal abnormalities, minor, fate of kidney transplants from donors with (Spanos et al.), 252
allograft(s), canine, passive enhancement of, with polyspecific $F(ab')_2$ fragments (Wren et al.), 112
prolongation using phytomitogens to mask graft antigens (Toledo-Pereyra et al.), 121
rejection, failure of anti–HL-A antibodies to correlate with (Callender et al.), 573
artery stenosis, deceptive patterns of (Dean et al.), 872
autografts, canine, immunologic injury induced by ex vivo perfusion of (Filo et al.), 88
transplantation, human, functional characterization of blocking antibody after (Miller et al.), 129
in 100 children, results of (DeShazo et al.), 461
transplants, human, accelerated rejection of, combined use of ^{131}I hippurate blood clearance and bladder/kidney ratio data in early detection, classification, and management of (Moore and Hayes), 587
Renovascular hypertension, post-traumatic (Sechas, Plessas, and Skalkeas), 666
Reoperation for residual defects after repair of tetralogy of Fallot (Castaneda et al.), 1010
Repair, direct, of carotid cavernous fistula, with preservation of carotid (Parkinson et al.), 882
Replacement, vena caval, current status of (Sherck, Kerstein, and Stansel), 209
Research fellowships, surgical, in United States, attitudes of British graduates on (Knight and Griffiths), 238
Resection, staged palliative, of recurrent carcinoma of neck using extra anatomic carotid bypass (Hagood, Mozersky, and Fite), 671
Residency programs, foreign medical graduate, and physician supply (Leape) (editorial), 372
training programs, surgical, should the total number be regulated? (panel discusssion) (Spencer), 188
Residents, surgical, the demand for: some preliminary observations (panel discussion) (Hughes), 176
Reticuloendothelial and hepatic parenchymal function in baboon, effect of ischemia on (Holper et al.), 423
function: determinant for survival following hepatic ischemia in baboon (Olcay et al.), 643
Retransplantation, kidney cell crossmatch in (Pierce and Lee), 101
RNA, xenogeneic "immune," immune cytolysis of human tumor cells mediated by: implications for immunotherapy (Pilch et al.), 23
Rupture of spleen, traumatic, lower abdominal tenderness following (Butsch and Butsch) (letter to editors), 524
spontaneous (pathologic), of spleen in malignancies (Karakousis and Elias), 674
Russian surgeon, great, Boris Petrov and Sklifosovsky Institute of Emergency Surgery (Wangensteen), 204
